

Care Compare Five-Star Ratings of Nursing Homes Provider Rating Report for January 2022

Ratings for Saint Anthony Rehab and Nursing Center (155604) Lafayette, Indiana				
Overall Quality	Health Inspection	Quality Measures	Staffing	RN Staffing
★★★★★	★★★★	★★★★★	★★	★★

The Five-Star ratings provided above will be displayed for your nursing home on the Care Compare website on or around January 26, 2022. The health inspection rating incorporates data reported through December 31, 2021. The time periods for each of the quality measures that contribute to the Quality Measure (QM) rating can be found in the QM tables located later in this report. The staffing and RN staffing ratings are based on payroll-based journal (PBJ) staffing data reported for the third calendar quarter of 2021.

Helpline

The Five-Star Helpline will operate Monday - Friday **January 24 - February 4, 2022**. Hours of operation will be from 9 am - 5 pm ET, 8 am - 4 pm CT, 7 am - 3 pm MT, and 6 am - 2 pm PT. The Helpline number is 1-800-839-9290. The Helpline will be available again **February 21 - 25, 2022**. During other times, direct inquiries to BetterCare@cms.hhs.gov as Helpline staff help respond to e-mail inquiries when the telephone Helpline is not operational.

Important News

New! Weekend staffing and staff turnover data to be added to the Nursing Home Care Compare website with the January 2022 refresh.

Weekend Staffing: the level of total nurse and registered nurse (RN) staffing on weekends provided by each nursing home over a quarter. This will be reported in terms of the average number of RN and total nurse hours worked per resident per day on weekends (Saturdays and Sundays).

Staff Turnover: the following staff turnover measures will be displayed with the January 2022 refresh:

- The percent of RN staff that left the facility over the last year.
- The percent of total nurse staff that have left the facility over the last year.
- The number of administrators that have left the facility over the last year.

These measures will not be used in the calculation of the Five-Star staffing rating at this time. The specific values that will be posted on the Care Compare website can be found later in this report.

CMS will add the facility-level measures of turnover and weekend staffing to the Provider Information file posted in the Provider Data Catalog (PDC) in the section for "Nursing homes including rehab services".

Important News (continued)

Reminder for Nursing Homes to Link Employee Identifiers when they are changed due to changes in the facility's staffing data systems. Facilities **must** link employee identifiers to ensure their turnover measures are accurate. To view the instructions and templates for linking employee identifiers, please see the PBJ Provider User's Guide (link in the References section of this report). Find the technical submission file template to submit linked identifiers titled "PBJ XSD Admin file V1.00.0 (ZIP)" in the downloads section of the CMS PBJ webpage (link provided on the References page).

Please see the Five-Star Quality Rating Technical Users' Guide or the CMS Memorandum QSO-22-08-NH for additional information about the items listed above. Links to these resources are on the References page.

Skilled Nursing Facility Quality Reporting Program (SNF QRP) Measures

With the January 2022 refresh, the MDS-based SNF QRP measures will be calculated using three quarters of MDS assessment data (7/1/2020 – 3/31/2021) due to the temporary exemption to the SNF QRP data submission requirements in response to the COVID-19 Public Health Emergency. Additionally, CMS has decided to continue with the data freeze for SNF QRP claims-based measures for an additional six months.

This decision will allow CMS more time to analyze the calculation of these measures, given the required comprehensive exclusion of claims data that occurred during Q1 2020 and Q2 2020, and the effect of that missing data on such aspects of measure calculation as lookback periods, and risk adjustment. We are targeting the July 2022 refresh of Care Compare for the resumption of the SNF QRP claims-based measure updates on Care Compare. For additional information, please see the SNF QRP COVID-19 Public Reporting Tip Sheet in the downloads section of the SNF Quality Reporting Training webpage and the SNF QRP Section of the FY 2022 SNF Final Rule at the CMS Skilled Nursing Facility Center website. The specific links to these resources are provided on the References page of this report.

Health Inspections

The Five-Star health inspection rating listed on the first page of this report is based on three cycles of survey data and three years of complaint and focused infection control inspections and incorporates data reported through December 31, 2021.

Your Health Inspection Rating

Provided below are the survey dates included in the calculation of the health inspection rating for your facility. The dates listed include standard survey dates as well as dates of complaint inspections and focused infection control inspections that resulted in deficiencies. For more detailed information about the deficiencies cited on each survey, please visit: <https://data.cms.gov/provider-data/>. This website updates on the same day as the Care Compare website. Any additional revisit points can be found in the 'Provider Information' table at the link provided above.

Health Inspection Rating Cycle 1 Survey Dates:

March 9, 2020

Health Inspection Rating Cycle 2 Survey Dates:

February 15, 2019

Health Inspection Rating Cycle 3 Survey Dates:

March 1, 2018

Total weighted health inspection score for your facility: 28.0

State-level Health Inspection Cut Points for Indiana				
1 Star	2 Stars	3 Stars	4 Stars	5 Stars
>86.17	50.68-86.17	32.01-50.67	16.01-32.00	0.00-16.00

Please note that the state cut points are recalculated each month, but the total weighted health inspection score for your facility is compared to the cut points only if there is a change in your score.

Long-Stay Quality Measures that are Included in the QM Rating

	Provider 155604					Rating Points	IN	US
	2020Q4	2021Q1	2021Q2	2021Q3	4Q avg		4Q avg	4Q avg
MDS Long-Stay Measures								
<i>Lower percentages are better.</i>								
Percentage of residents experiencing one or more falls with major injury	3.0%	0.0%	3.8%	5.5%	3.0%	60	3.9%	3.4%
Percentage of high-risk residents with pressure sores	2.0%	0.0%	2.4%	2.3%	1.7%	100	7.8%	8.3%
Percentage of residents with a urinary tract infection	3.3%	0.0%	2.0%	0.0%	1.4%	80	2.0%	2.4%
Percentage of residents with a catheter inserted and left in their bladder ¹	0.0%	1.9%	2.3%	1.8%	1.4%	60	1.1%	1.6%
Percentage of residents whose need for help with daily activities has increased	12.9%	13.1%	14.3%	9.6%	12.5%	105	16.9%	15.6%
Percentage of residents who received an antipsychotic medication	10.8%	9.7%	5.8%	5.6%	8.2%	120	13.5%	14.5%
Percentage of residents whose ability to move independently worsened ¹	19.0%	3.0%	12.1%	5.2%	10.4%	135	20.2%	22.1%

¹These measures are risk adjusted.

²This measure includes some imputed data because there are fewer than 20 resident assessments or stays across the four quarters. This value is used in calculating the QM points and used in the QM rating calculation but will not be displayed on Care Compare.

	Provider 155604				Risk-Adjusted Rate	US	
	Observed Rate ³	Expected Rate ³	Risk-Adjusted Rate ³	Rating Points		Observed Rate	Risk-Adjusted Rate
Claims-Based Long-Stay Measures							
<i>Lower rates are better. The time period for data used in reporting is 7/1/2020 through 6/30/2021.</i>							
Number of hospitalizations per 1,000 long-stay resident days ¹	2.62	1.92	2.27	45	1.38	1.667	1.44
Number of emergency department visits per 1,000 long-stay resident days ¹	1.40	2.22	0.84	90	0.85	1.338	0.79

¹These measures are risk adjusted.

²This measure includes some imputed data because there are fewer than 20 resident assessments or stays across the four quarters. This value is used in calculating the QM points and used in the QM rating calculation but will not be displayed on Care Compare.

³The observed rate is the actual rate observed for the facility without any risk-adjustment; the expected rate is the rate that would be expected for the facility given the risk-adjustment profile of the facility; and the risk-adjusted rate is adjusted for the expected rate of the outcome and is calculated as (observed rate for facility / expected rate for facility) * US observed rate. Only the risk-adjusted rate will appear on Care Compare.

Total Long-Stay Quality Measure Score	795
Long-Stay Quality Measure Star Rating	★★★★★

Short-Stay Quality Measures that are Included in the QM Rating

	Provider 155604					IN	US
	2020Q4	2021Q1	2021Q2	2021Q3	4Q avg	Rating Points	4Q avg
MDS Short-Stay Measures							
<i>Higher percentages are better.</i>							
Percentage of residents who made improvements in function ¹	84.3%	79.8%	91.3%	89.2%	87.1%	150	72.7%
<i>Lower percentages are better.</i>							
Percentage of residents who newly received an antipsychotic medication	0.0%	0.0%	0.0%	1.0%	0.4%	80	1.8%
<i>The time period for data used in reporting is 7/1/2020 through 3/31/2021.</i>							
Percentage of SNF residents with pressure ulcers/pressure injuries that are new or worsened ¹					1.0%	80	3.9%

	Provider 155604				IN	US	
	Observed Rate ³	Expected Rate ³	Risk-Adjusted Rate ³	Rating Points	Risk-Adjusted Rate	Observed Rate	Risk-Adjusted Rate
Claims-Based Short-Stay Measures							
<i>Higher percentages are better. The time period for data used in reporting is 10/1/2017 through 9/30/2019.</i>							
Rate of successful return to home and community from a SNF ¹	58.0%	NR	62.2%	135	54.7%	52.9%	52.9% ⁴
<i>Lower percentages are better. The time period for data used in reporting is 7/1/2020 through 6/30/2021.</i>							
Percentage of residents who were re-hospitalized after a nursing home admission ¹	18.9%	22.9%	19.4%	120	22.3%	23.4%	22.8%
Percentage of residents who had an outpatient emergency department visit ¹	11.7%	10.0%	11.9%	60	10.5%	10.2%	10.5%

¹These measures are risk adjusted.

²This measure includes some imputed data because there are fewer than 20 resident assessments or stays across the four quarters. This value is used in calculating the QM points and used in the QM rating calculation but will not be displayed on Care Compare.

³The observed rate is the actual rate observed for the facility without any risk-adjustment; the expected rate is the rate that would be expected for the facility given the risk-adjustment profile of the facility. For successful community discharge, the risk-adjusted rate is calculated as (predicted rate / expected rate) * US Observed rate and is referred to as the risk-standardized rate. For rehospitalization and emergency department visits, the risk-adjusted rate is calculated as (observed rate / expected rate) * US observed rate. Only the risk-adjusted or risk-standardized rate will appear on Care Compare.

⁴For this measure, this value is the National Benchmark, rather than the national average of the risk-adjusted rate. NR = Not Reported. The expected rate is not reported for this measure.

Unadjusted Short-Stay Quality Measure Score	625
Total Short-Stay Quality Measure Score (unadjusted short-stay QM score*1150/800) ¹	898
Short-Stay Quality Measure Star Rating	★★★★★
Total Quality Measure Score ²	1693
Overall Quality Measure Star Rating	★★★★★

¹An adjustment factor of 1150/800 is applied to the unadjusted total short-stay score to allow the long- and short-stay QMs to count equally in the total QM score.

²The total quality measure score is the sum of the total long-stay score and the total short-stay score. If a provider has only a long-stay score or only a short-stay score, then no total score is calculated and their overall QM rating is the same as the long-stay or short-stay QM rating, depending on which is available.

Quality Measures that are Not Included in the QM Rating

	Provider 155604					IN	US
	2020Q4	2021Q1	2021Q2	2021Q3	4Q avg	4Q avg	4Q avg
MDS Long-Stay Measures							
<i>Higher percentages are better.</i>							
Percentage of residents assessed and appropriately given the seasonal influenza vaccine	98.5%	98.5%	98.5%	98.5%	98.5%	94.3%	95.8%
Percentage of residents assessed and appropriately given the pneumococcal vaccine	100%	100%	100%	100%	100%	91.5%	93.3%
<i>Lower percentages are better.</i>							
Percentage of residents who were physically restrained	0.0%	0.0%	0.0%	0.0%	0.0%	0.1%	0.2%
Percentage of low-risk residents who lose control of their bowels or bladder	37.8%	39.3%	28.6%	32.3%	34.7%	54.3%	47.1%
Percentage of residents who lose too much weight	7.1%	7.7%	6.5%	4.1%	6.4%	7.3%	6.7%
Percentage of residents who have depressive symptoms	4.8%	3.5%	0.0%	0.0%	2.3%	12.1%	7.4%
Percentage of residents who received an antianxiety or hypnotic medication	21.0%	21.3%	20.4%	17.3%	20.1%	21.6%	19.7%
MDS Short-Stay Measures							
<i>Higher percentages are better.</i>							
Percentage of residents assessed and appropriately given the seasonal influenza vaccine	98.7%	92.9%	92.9%	92.9%	95.3%	74.5%	78.8%
Percentage of residents assessed and appropriately given the pneumococcal vaccine	100%	100%	100%	100%	100%	75.6%	80.0%

Additional Notes Regarding the Quality Measure Tables

"d<20". For individual quarters for the MDS-based QMs, d<20 means the denominator for the measure (the number of eligible resident assessments) is too small to report. A four quarter average may be displayed if there are at least 20 eligible resident assessments summed across the four quarters.

"NA". "NA" will be reported for quality measures not included in the QM Rating: 1) for which data are not available or 2) for which the total number of eligible resident assessments summed across the four quarters is less than 20.

SNF Quality Reporting Program (QRP) Measures:

Two of the short-stay QMs used in the Five-Star QM rating calculation are SNF QRP measures: "Percentage of SNF residents with pressure ulcers/pressure injuries that are new or worsened" and "Rate of successful return to home and community from a SNF." There are additional SNF QRP measures that are not included in the Five-Star ratings but are displayed on Care Compare. Information about these measures can be found on separate provider preview reports in the QIES mailbox. Please watch for communication from CMS on the availability of these reports. Additional information about the SNF QRP measures can be found in the Quality of Resident Care section on the References page of this report.

Staffing Hours per Resident Day

PBJ data for **July 1, 2021 to September 30, 2021** (submitted and accepted by the November 14, 2021 deadline) are being used to calculate the staffing ratings for three months starting with the January 2022 Care Compare website update. The table below includes the reported, case-mix and adjusted staffing levels for your facility, using the PBJ data for **July 1, 2021 to September 30, 2021**. The case-mix staffing values are based on resident acuity levels using RUG-IV data. The Five-Star Rating Technical Users' Guide contains a detailed explanation of the staffing rating and the case-mix adjustment methodology. The table also shows the weekend staffing levels (total nurse and RN) for your facility. Below the table is the average resident census for your facility.

Staffing Levels for July 1, 2021 to September 30, 2021 for Provider Number 155604				
	Reported Hours per Resident per Day (HRD)	Reported Hours per Resident per Day (HRD) (Decimal)	Case-Mix HRD	Case-Mix Adjusted HRD
All days				
Total nurse (RN, LPN, LVN, and Nurse Aide) hours	3 hours and 41 minutes	3.685	3.371	3.451¹
RN hours	29 minutes	0.481	0.412	0.437¹
LPN/LVN hours	1 hour and 25 minutes	1.409	0.798	1.299
Nurse aide hours	1 hour and 48 minutes	1.796	2.161	1.701
Physical therapist ² hours	12 minutes			
Weekend² (Saturday and Sunday)				
Total nurse (RN, LPN, LVN, and Nurse Aide) hours	2 hours and 17 minutes	2.287		
RN hours	16 minutes	0.259		

¹Please see the staffing tables located in the Technical Users' Guide (link provided below) for the specific cut points utilized with the bold case-mix adjusted values.

²Physical therapist and weekend staffing levels are not included in the staffing rating calculation.

The average number of residents for your facility (based on MDS census) is **72.3**.

Availability of Reported Staffing Data

Some providers will see 'Not Available' for the reported hours per resident per day in the table above and a staffing rating may not be displayed for these facilities. There are several reasons this could occur:

Note that these codes have changed as of January 2022.

1. No MDS census data were available for the facility.
 2. No on-time PBJ staffing data were submitted for the facility.
 4. No nursing hours were reported (0 HRD).
 5. Total reported nurse staffing was excessively high (>12.0 HRD).
 6. Total reported nurse aide staffing was excessively high (>5.25 HRD).
 7. A CMS audit identified significant discrepancies between the hours reported and the hours verified, or the nursing home failed to respond to an audit request.
 14. No nursing hours were reported on weekends (0 HRD).
 15. Total reported nurse staffing on weekends was excessively high (>12.0 HRD).
 16. The total reported nurse aide staffing on weekends was excessively high (>5.25 HRD).
 18. Other reason.
-

Scoring Exceptions for the Staffing Rating

The following criteria have been added to the usual scoring rules for assigning the staffing rating and the RN staffing rating.

1. Providers that fail to submit any staffing data by the required deadline will receive a one-star rating for overall staff and RN staffing for the quarter.
2. Providers that submit staffing data indicating that there were four or more days in the quarter with no RN staffing hours (job codes 5-7) on days when there were one or more residents in the facility, regardless of reported staffing levels, will receive a one-star rating for overall staff and RN staffing for the quarter.
3. CMS conducts audits of nursing homes to verify the data submitted and to ensure accuracy. Facilities for which the audit identifies significant discrepancies between the hours reported and the hours verified or those who fail to respond to an audit request will receive a one-star rating for overall staff and RN staffing for three months.

PBJ staffing summary for July 1, 2021 to September 30, 2021

The following table summarizes the nurse, physical therapist and administrator data that your facility reported to the PBJ system for the quarter. The data include both exempt and non-exempt employees, as well as agency staff. Please note that values for hours are rounded to the nearest integer. As with the other information, facilities should review this information to ensure they are reporting complete and accurate data for future submissions.

Staffing Category	Job Code(s)	Total number of hours that your facility reported for the quarter	Number of days in the quarter on which your facility reported ANY hours
<i>RN Director of Nursing</i>	5	461	58
<i>RN with administrative duties</i>	6	0	0
<i>RN</i>	7	2,739	90
Total RN	5-7	3,200	90
<i>LPN/LVN with administrative duties</i>	8	3,644	77
<i>LPN/LVN</i>	9	5,728	92
Total LPN/LVN	8-9	9,372	92
<i>Certified Nurse Aide</i>	10	7,669	92
<i>Nurse Aide in Training</i>	11	0	0
<i>Medication Aide/Technician</i>	12	4,277	92
Total Aide	10-12	11,946	92
Total Nurse Staffing	5-12	24,517	92
Physical Therapist Staffing	21	1,330	72
Administrator Staffing	1	420	53

PBJ staffing data report for July 1, 2021 to September 30, 2021

The following table summarizes the information that your facility reported for nurse staffing only (PBJ Job codes 5-10 and 12) as listed in the PBJ nurse staffing summary for **July 1, 2021 to September 30, 2021**. We believe these are indicators of the completeness of the data submitted by your facility and the plausibility of the values reported. Indicators 1 and 2 show whether or not a facility has reported nurse staffing information for each day in the quarter. If a facility did not report hours for nursing staff for each day, we believe that may indicate that the facility has not submitted complete data.

For days that no nursing or RN staff hours were reported (indicators 1 and 2), we have included a list of those dates in listings 1 and 2, located at the end of this report.

Indicator	Description	Number of days
1	Number of days in quarter on which your facility reported no nursing hours (i.e. no aide ¹ , LPN, or RN) but on which there were residents in the facility	0
2	Number of days in quarter on which your facility reported no Registered Nurse (RN) ² hours but on which there were residents in the facility	2

¹Includes the following job codes: Certified nurse aide (job code 10) and medication aide/technician (job code 12). Aides in training are not included.

²Includes the following job codes: RN DON (5), RN with administrative duties (6), and RN (7).

Staffing Turnover

PBJ data from April 1, 2020 to September 30, 2021 are used to calculate annual nursing staff and RN turnover measures and to report the number of administrator turnovers among eligible administrators in the 12-month reporting period between July 1, 2020 to June 30, 2021. PBJ does not collect information on employee termination dates; instead a turnover is identified based on gaps in days worked. The turnover measures include employees and agency staff that have worked at least 120 hours at your facility in a 90-day period since the first observed work day between April 1, 2020 to December 31, 2021. Individuals no longer associated with a nursing home are defined as eligible employees who have a period of 60 or more days during which they do not work at all. The data listed below report the nursing, RN, and administrator turnover measures for your facility July 1, 2020 to June 30, 2021. (Note that data from 2020Q2 - 2020Q4 are used to identify individuals who are eligible for the turnover measure, while data from 2021Q3 are used to identify individuals who had a 60-day or more gap in days worked that started within the last 60 days of 2021Q2.)

These turnover measures will be posted on Nursing Home Care Compare starting with the January 2022 update. Initially, the turnover measures will not be used for determining staffing ratings. The turnover measures will be updated quarterly using a rolling 12-month period. Detailed information on how turnover is calculated is available in the Technical Users' Guide. Find the link on the References Page of this report.

PBJ Nurse Staffing Turnover for July 1, 2020 to June 30, 2021 for Provider Number 155604				
	Turnover Rate	Number of Eligible Staff ¹	Number of Eligible Staff Identified as Turned over	Reason Data Not Reported ²
Nursing staff turnover	32.9%	85	28	N/A
RN turnover	33.3%	12	4	N/A
Administrator turnover		1	0	N/A

¹The number of eligible staff is based on a count of the number of eligible 'employment spells.' For more details on the methodology used to calculate nursing staff turnover, please see the measure specifications, available at the location listed in the references below.

²If there is a numeric code in this column, then the turnover measure for your facility will show as "Not Available" on Care Compare for the reason matching the code in this column (see definitions below). N/A = Not Applicable— If the "Reason Data Not Reported" shows N/A, then the turnover rates shown for your facility will be reported on Care Compare.

N.A. = Not Available. This abbreviation will appear in the table if turnover cannot be calculated based on the submitted data.

Availability of Turnover Data

Some providers will see 'Not Available' for one or more of the turnover measures in the table above or on Care Compare. There are several reasons this could occur:

Nursing Staff and RN Turnover

1. No or invalid PBJ data submitted for one of more quarters between April 1, 2020 to September 30, 2021.
2. Fewer than 5 eligible nurse (or RN) employees or agency staff.
3. 100% nurse (or RN) turnover on a single day. If you see this code in the table above, up to two dates on which it appears your nursing home had 100% turnover on a single day are listed below. In this case, you may need to submit data to link employee identifiers. See additional information in the Important News section and on the References page of this report.

Days with 100% turnover for all nursing staff

[No Dates with 100% nurse turnover](#)

Availability of Turnover Data (continued)

Administrator Turnover

1. No or invalid PBJ data submitted for one or more quarters between April 1, 2020 to September 30, 2021.
 2. No administrator hours were submitted for one or more quarters between April 1, 2020 to September 30, 2021.
 3. No eligible administrator employees or agency staff.
-

MDS Census Calendars for July 1, 2021 to September 30, 2021

On the following page are calendars with the daily census values for your facility, based on the assessments submitted (for all payer types) and calculated using the method described in the Five-Star Quality Rating System Technical Users' Guide. Days of the month are shown in black in the upper left hand corner, while the daily census value is shown in blue in the lower center of each day.

Daily MDS Census for July 2021						
Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
				1 72	2 73	3 75
4 75	5 74	6 76	7 77	8 76	9 76	10 75
11 75	12 76	13 76	14 79	15 79	16 80	17 79
